Thanksgiving Proclamation.

The season approaches when it behooves us to turn from the distractions and preoccupations of our daily life, that we may contemplate the mercies which have been vouchsafed to us, and render heartfelt and unfeigned thanks unto God for His manifold goodness.

This is an old observance of the American people, deeply imbedded in our thought and habit. The burdens and the stresses of life have their own insistence.

We have abundant cause for thanksgiving. The lesions of the war are rapidly healing. The great army of free men, which America sent to the defense of liberty, returning to the grateful embrace of the nation, has resumed the useful pursuits of peace as simply and as promptly as it rushed to arms in obedience to the country's call. The equal justice of our laws has received steady vindication in the support of a law-abiding people against various and sinister attacks, which have reflected only the baser agitations of war, now happily passing.

In plenty, security and peace, our virtuous and self-reliant people face the future, its duties and its opportunities. May we have vision to discern our duties, the strength, both of hand and resolve, to discharge them and the soundness of heart to realize that the truest opportunities are those of service.

In a spirit, then, of devotion and stewardship, we should give thanks in our hearts and dedicate ourselves to the service of God's merciful and loving purposes to His children.

Wherefore, I, Woodrow Wilson, President of the United States of America, do hereby designate Thursday, the twenty-fifth day of November next, as a day of thanksgiving and prayer, and I call upon my countrymen to cease from their ordinary tasks and avocations upon that day, giving it up to the remembrance of God and His blessings, and their dutiful and grateful acknowledgment.

WOODROW WILSON.

Washington, Nov. 12, 1920.

Dr. Garland to Resign Position.

Dr. D. F. Garland, director of Public Welfare, Dayton, O., has announced his resignation to take effect Dec. 31.

Dr. Garland was formerly pastor of the Lutheran Church of Taneytown, and of the First Lutheran Church of Dayton. It is rumored that he may accept a similar position to the one he now occupies in another city. Dr. Garland has many friends in Gettysburg where he graduated from College and Seminary, who will be interested in the following notice in The Dayton Evening Herald:

"As director of welfare work for seven years, Dr. Garland has gained a national reputation. The local department is considered the most comprehensive in welfare activities in this country."

In speaking of his resignation Dr. Garland said he wished the people of Dayton to know that he never had been attracted to the position of city manager there, as it had been rumored.

"I have been interested in welfare work, heart and soul, and the administrative duties of the city manager's office here or elsewhere, can have no attraction for me," he said. "I have inaugurated a system of local work that has been a success as is evidenced by the requests for assistance in establishing similar systems elsewhere, and I hope to continue in that specific line of community work," he added.

For fourteen years prior to taking the welfare position, Dr. Garland was pastor of the First Lutheran Church there. During that time he succeeded in raising funds sufficient for the new church building at First and Wilkinson streets. Four mission churches also were erected during his pastorate.

"As president of the bureau of municipal research, which he organized he studied and instituted the propaganda which resulted in the establishment of the city manager form of government."

"Besides being identified with practically every social welfare agency there, Dr. Garland has taken a very active part in the work of every civic organization. He has served as president of the Ohio Society for the Prevention of Tuberculosis, and has been a trustee of the tuberculosis sanitarium there for seven years. In the Rotary Club and the Dayton Chamber of Commerce he has always been a hard worker."

Kitchen Stove Ignites Clothes.

Flames from a cook stove ignited the clothes of Mrs. Flora Laughman, employed as cook at the Altland House, Abbottstown, and severely burned the woman about the body and arms. She is in the York Hospital in serious condition as the result of the accident.

Mrs. Laughman had completed cleaning celery and was standing with her back to the stove to warm her hands. It is believed that a draft caused the flames to lick out of a small open space and ignite the woman's dress. In a short space of time the back of the dress was ablaze.

Beating at the flames as best she could, Mrs. Laughman failed to extinguish them and began to scream for help. Mr. and Mrs. Henry Kinneman rushed into the kitchen to ascertain the cause. Grasping the situation at once Mr. Kinneman snatched up a bucket of water standing near by and dashed it over the woman, putting out the fire.

Dr. T. C. Miller was summoned and after applying first aid ordered the sufferer removed to the York Hospital.

Don't Treat Kidneys Rough, Warns Dr. Carey, Specialist

Constant Flushing May Injure the Delicate Organism and Seldom Removes the Poisonous Deposits.

Now that Dr. Carey, kidney and bladder specialist, has retired from active practice, he generously warns people that even the smallest symptoms of kidney trouble should have serious attention.

Backache, for instance, puffiness under or specks floating before the eyes, heavy feet and dry skin, are also danger signals.

"Thousands die yearly because they neglect their kidneys," says Dr. Carey, "and I feel upon retiring that I should tell all who even suspect kidney or bladder trouble about my prescription, Marshroot, which, during my active practice, has cured thousands of all kinds of kidney ailments."

This prescription has been given to pharmacists generally throughout America and is dispensed by them under the name Dr. Carey's Marshroot, a name that every sufferer from kidney trouble should remember. Shuman's Drug Store can supply you.

Announcing the Great Adams Co. Campaign \$100,000 HOSPITAL ENDOWMENT to be Raised in Ten Days, Beginning THANKSGIVING DAY

To Everyone in Adams County:

IS it not amazing that Adams County went along from year to year for so long a time without a hospital of its own? Every year over 500 of us have had to be sent to outside hospitals for treatment at an expense which almost equals the \$100,000 which is to provide the means for taking care of all, when ill, right here at home. Just think of it!

But now we are very fortunate for we have our hospital building. We have a staff of physicians in Adams County not only ready to cooperate when the hospital is ready to receive patients but who are even now giving a large amount of their time to making plans to have your hospital the best hospital which money and science can provide. Not one or a dozen but **every physician** throughout the county is interested in making it possible for our hospital plant to be put into service at the earliest moment.

And this service is for you and yours

The Annie M. Warner Hospital has an equipment which is surpassed by none. It is most modern and complete, meeting in every respect the rigid requirements of State and National Hospital standards. We have the best in everything, including exactly the same kind of X-Ray unit as is in the far-famed University of Pennsylvania Hospital in Philadelphia.

Not only are all physicians of our county eligible for its staff--and this means that you may have **your own physician** when it may be **your turn** to be a patient--but consultants from other cities will be at your bed-side if needed or if you wish to have them.

There will be a complete staff of nurses and an opportunity for any of our young people who may desire to enter this profession which provides so many ways of being helpful to others, to train right here at home. What more can we want--what more can heart and common-sense desire?

Just one thing! The money to put this equipment into daily use to care for the sick of Adams County. It matters not whether rich or poor--all of our people are to have the very best treatment available in time of need; at no expense when circumstances allow no funds for illness, and at a saving for every one.

Contributions are to be received through any bank in Adams County. If you have a banking connection with one of these send your pledge or your check for the fund to your own bank because it's officers are all working to secure the largest possible pledges for contributions from your part of the county. If you have no banking connection send your subscription to the one nearest you. Forms for this purpose may be found in any bank in the county, or you may just write a letter or send your check.

Remember, this is the **Annie M. Warner Hospital of Adams County Fund** for the benefit of every resident of Adams County. We know that you will do your part toward making it possible to open the hospital for immediate service. You need not wait until next week. Think it over at once and let the committee know through your bank that you can be counted upon.

"Be First to Help Your Hospital. You May be First to Need Its Help."
